

Cloud Library

Step 1

On your tablet or smartphone, go to your device's app store and download the "Cloud Library" app.

Step 2

Once the "Cloud Library" app has been downloaded to your device, you can open the app and follow the on-screen prompts to select the Lake Forest Library and sign in using your Lake Forest Library card number (your number is found on the back of your library card). Enter the entire number without spaces.

Step 3

After signing in, you will be able to browse and search the Library's collection of eBooks and eAudiobooks. In the top left-hand corner you will see the menu icon which is made up of three horizontal lines. Use this button to access the eBooks you have checked out, and the "browse" feature of the app.

Step 4

You can also search for a specific title or author using the magnifying glass icon in the top right-hand corner.

Step 5

When you find a book you would like to check out, simply click on the cover of the book. A window will pop up and you will see a button that says "Borrow." Click "Borrow" to check out the title. If the item is currently checked out by another patron, it will say place a hold, and you can enter your email address to place a hold. If you place the item on hold you will be notified via email when it is ready for download.

Step 6

Again, you can access and read the eBooks you have checked out by clicking on the menu icon in the top left-hand corner of the app, and then clicking on "My Books."
